

Scuff Tuff

Scuff Tuff is the only 100% acrylic modifier on the market today for use with Brewer Cote Resurfacer II and other Asphalt-Based Sealers. Scuff Tuff is specially formulated to increase chemical resistance and film strength, along with improving color and aggregate retention. Use Scuff Tuff where increased durability is needed in high wear areas, excellent for runways and taxi areas, along with all commercial and industrial properties. Also improves resistance to oils, fuels, grease, and water.
